FABRIZIO MILANESIO

QA Engineer | Functional QA Analyst | Software Testing Engineer

Cordoba, Argentina | +54 9 351-2007897 | fabrimila1998@gmail.com | linkedin.com/in/fabrizio-milanesio

PROFESSIONAL SUMMARY

QA Engineer specializing in end-to-end quality assurance for web applications and transactional platforms. Experienced in designing and executing functional, regression, integration, and UAT testing; validating REST APIs, data, and critical business workflows; and managing defects in Agile/Scrum teams. I use Postman, SQL/DBeaver, Jira, AWS CloudWatch, and Splunk to identify risk, provide evidence, and support reliable deliveries.

PROFESSIONAL EXPERIENCE

QA Engineer | Odaclick Game Studio

October 2026 - Present | Remote | Full-time

- Responsible for end-to-end quality assurance for a new ticketing platform, ensuring functional coverage of critical workflows from the user interface through back-end services.

QA/QC Unity and Mobile | Odaclick Game Studio

November 2025 - October 2026 | Remote | Full-time

- Led and coordinated QA/QC activities across multiple environments for Unity and mobile products.
- Designed and executed functional, exploratory, and regression test cases; managed defects in Jira.
- Reviewed implementations and pull requests against requirements; validated deployments, features, and user experience.

References: David Suarez (Founder), Ignacio Castro (Tech Lead), and Ricardo Pino (Team Lead).

Software Test Engineer | KIDAR SAS

May 2026 - October 2026 | Remote | Project-based contract

- Performed functional testing and UAT support on a banking migration project for Banco de Chile.
- Conducted API testing and REST API validation with Postman; designed and executed test scenarios and test cases for critical business flows.
- Validated databases with complex SQL queries in DBeaver; analyzed logs and troubleshot with AWS CloudWatch and Splunk.
- Performed end-to-end validation for the migration of legacy COBOL services to microservices.

Semi-Senior Software Testing Engineer | EPAM Systems

March 2025 - November 2025 | Cordoba, Argentina | Full-time

- Executed functional, regression, and exploratory testing in Agile/Scrum environments.
- Tracked bugs, managed defects, and followed up on tasks in Jira.

Reference: Juan Burich (Córdoba Lead).

Laboratory Development Program | National Technological University

May 2022 - November 2022

- Contributed to asymmetric cryptography initiatives using Python, Git, and Linux/Bash.

Freelance Tester | uTest

January 2016 - January 2019 | Remote

- Collaborated in testing cycles for mobile, web, and consumer software applications.

TECHNICAL SKILLS

CORE QA AND TESTING

Manual, functional, exploratory, regression, integration, end-to-end (E2E), UAT, test cases, test scenarios, test execution, defect management, bug tracking, performance testing.

API, BACK-END, AND DATA

API testing, REST APIs, Postman, microservices, SQL, DBeaver, database validation.

CLOUD, MONITORING, AND LOGS

AWS CloudWatch, Splunk, log analysis, troubleshooting.

TOOLS AND METHODOLOGIES

Jira, Git, Trello, ClickUp, Python, C#, Java, Linux/Bash, Unity, Agile, Scrum, Cursor, Generative AI, Advanced Excel.

EDUCATION

Systems Analyst

National Technological University (UTN) | 2016 - 2023

CERTIFICATIONS

Functional Tester Certificate

UTN | March 2025

Gaming Tester Certificate

UTN | April 2025

ISTQB Foundation Level

UTN

Advanced Blockchain Technologies

UTN

LANGUAGES

Spanish: native/bilingual
English: full professional proficiency
Portuguese: basic

SOFT SKILLS

Analytical thinking and problem solving
Proactivity, leadership, and communication
Fast learner, reliable, and responsible

INTERESTS

Chess, gaming, basketball, and baseball.
Blockchain and cryptocurrencies.
Artificial Intelligence and Cybersecurity.
